EXPERIENCE

Competition

Emily is a leading senior junior in Competition Law, recommended by Chambers Global, Chambers UK and Legal 500.

Emily has experience in all aspects of competition litigation. This is seen in the broad range of her competition work in recent years, ranging across:

- complex interlocking individual claims in the CAT (such as the ongoing Trucks Wave II litigation and the Visa Umbrella Proceedings);
- appeals in the European Courts against cartel findings by the EU Commission (Natixis);
- group litigation (both as Claimant – in the “Dieselgate” litigation – and Defendant – for example in the Water Collective Proceedings, Musical Instruments Collective Proceedings; Aldermore Collective Proceedings and Commercial Cards Collective Proceedings);
- arbitrations (for example, acting in a confidential arbitration of a competition law dispute between two international blue-chip names);
- litigation involving competition law based regulation (for example acting for Ryanair in the judicial review of 2023-2026 price control of charges at Dublin Airport; acting for and advising regulatory authorities including Ofgem and the Northern Ireland Utility Regulator on price control decisions; acting for one of the largest electricity generators in the UK in a judicial review to challenge capacity market decisions; acting for the BBC in a judicial review relating to the development of the BBC Sounds App); and
- urgent injunctions/applications (for example, acting against Google in an urgent injunction to prevent a change to Adwords terms on the basis of an alleged abuse of dominance and acting on an urgent basis to restrict use of documents seized as part of a dawn raid by the Italian Competition Authority).

Emily’s competition experience builds on her expertise in EU law and complements her practice in subsidy control, telecomms and energy regulation (see below). Energy

“Commercially-minded and pragmatic, she is really at the top of her game.”

She has appeared in some of the most significant energy litigation in recent years, including Breyer (one of The Lawyer's Top Cases 2018), Buick (relating to the key interconnector needed for the Single Electricity Market), and the Renewable Heat Incentive Inquiry (addressing the botched energy scheme which caused the fall of Government in Northern Ireland).

She is regularly instructed on highly confidential matters by Ofgem, by the Oil and Gas Authority (energy regulators in Great Britain) and by the Northern Ireland Authority for Utility Regulation; as well as for commercial entities including large multinational energy companies active in the UK and Irish markets.
